

PLANNING YOUR NEXT ADVENTURE? GET THE FACTS ON AVIATION SAFETY

FLYING IS THE SAFEST WAY TO TRAVEL

You are 39 times more likely to be in fatal accident driving when compared to flying

Airplane crashes are so rare that...

You are 5 times more likely to be killed by lightning

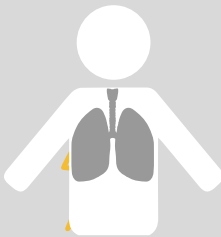

Death by lightning strike:
1 in 1,220,000

You are 65 times more likely to die from a fire

Death by fire:
1 in 95,600

You are 100 times more likely to die from choking

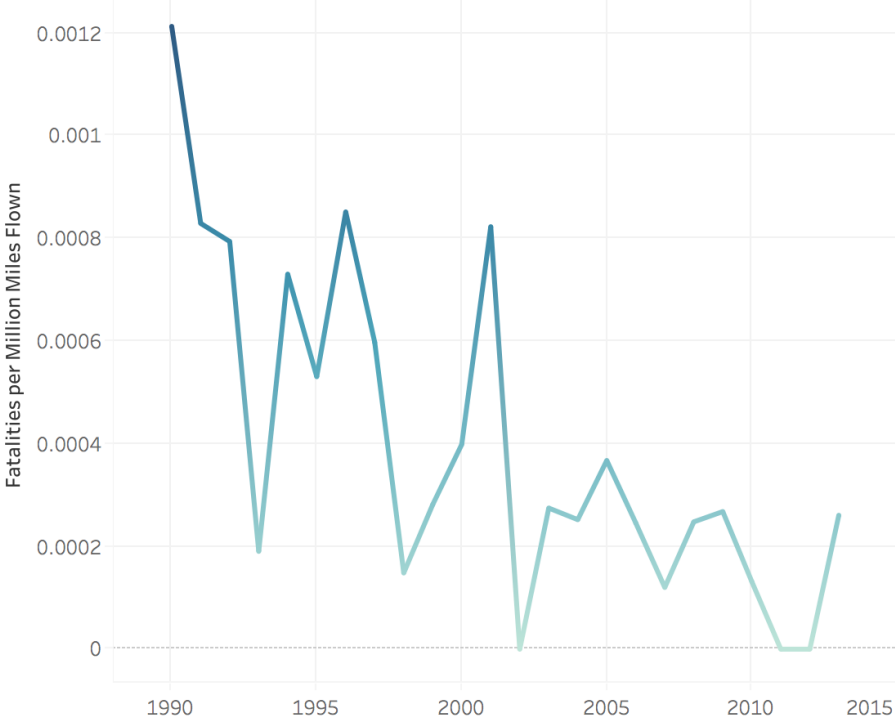

Death by choking:
1 in 62,300

While the chances of being in a fatal airplane crash are only
1 in 6,250,000

THEY ARE HAPPENING LESS OVER TIME

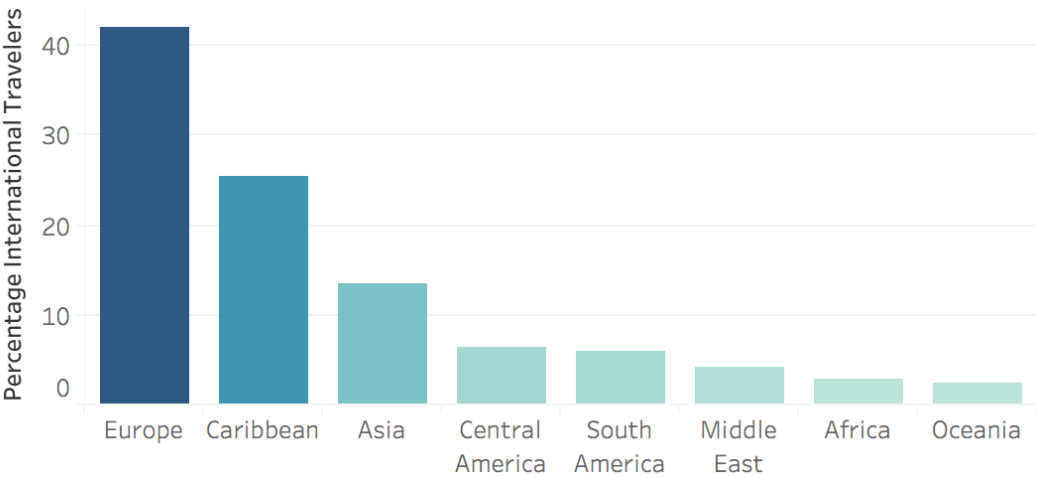

The overall trend for airplane crash fatalities in the United States is decreasing over time.

Americans Love International Travel
